

The Paducah Evening Sun.

VOL. XXIII NO. 156

PADUCAH, KY., TUESDAY EVENING, JUNE 30, 1908

TEN CENTS PER WEEK

JUNE IS POPULAR WITH LOVE LORN COUPLES STILL

As Record at McCracken County Court House Attests and Judge Can Tell.

Recruiting Increases Since Better Pay is Promised.

POLICE AND FIRE REPORTS

June is still popular as a month for marriages, as shown by the record in the county clerk's office at the court house, where 34 licenses were issued in the month ending today. Of this number County Judge Lightfoot performed nearly half of the ceremonies in his office. There were run-away couples, elopements and conventional marriages, ranging from the simplicity of the court house and hotel parlor ceremony, to the elaborate church weddings.

For the first six months of 1908 a total of 176 marriage licenses have been issued here. An astonishingly large number of the licenses are issued to Illinois couples, more, perhaps than go from Kentucky to Mississippi.

Divorce suits were not filed in large numbers in June, as the records in the circuit clerk's office show only five couples are seeking a separation.

Enlistments.
Enlistments at the local recruiting station for the last six months totaled 72, and Sergeant Blake attributes the good showing to the increased pay and to the fact that depressed industrial conditions made the army an attractive prospect to many men. There were 251 applicants.

This statement shows that less than 33 per cent of the applicants for enlistment in the army are accepted, but all were not rejected for physical disability. Many were too young or too short, or were married. Strict attention is being paid to the regulations about recruits, and as a result, a high class of men are entering the service. Captain W. L. Reed was in the city today and accepted W. A. Cash, of Golconda, Ill., who re-enlists in the army after several months in private life. He decided that the army career was the one for him and will go to the coast artillery at Ft. Monroe, Va.

One applicant accepted by Sergeant Blake yesterday was physically well qualified, but failed to show up this morning to be sworn in. Cases like this arise frequently and are ascribed to the fact that the applicant was married and when he was asked to give references in his home town, concluded that the jig was up for him.

Captain Reed informed Sergeant Blake that he must go to St. Louis soon to have his picture taken and thumb marks registered at Jefferson barracks. Sergeant Blake and other men on detached service did not have this done when the rest of the army did. Photographs and thumb marks are used to identify soldiers on the field of battle, or when they disappear or desert.

Police Report.

June has been a quiet month with the police department, and few felonies have dotted the docket. During the month to noon the police had made 136 arrests, with breach of the peace warrants leading the race by a length. The cops pulled 37 persons for fighting or raising a disturbance. The arrests were: Breach of peace, 37; breach of ordinance, 4; drunk 13; malicious cutting, 1; house-breaking, 3; fugitive, 2; suspect, 1; loitering, 3; crazy, 1; mooning, 1; concealed weapons, 5; obtaining money by false pretenses, 5; petty larceny, 5; immorality, 7; selling liquor without a license, 2; grand larceny, 4; using insulting language, 5; malicious shooting, 1; non-support, 1; false swearing, 1; drunk and disorderly, 1; converting money of another to own use, 2.

Fire Department.

June has been a quiet month with the fire department as there have been only 12 runs, with not over \$500 loss at any blaze. The biggest fire was June 1 when the stable at the Sherill home, Fountain avenue and Jefferson street, burned, but by good work of the department was checked before the handsome residence caught fire. The insurance on the buildings will far exceed the loss although it has not been figured out. June has always been a quiet month for the fire fighters, and this June was no exception.

Building Permits.

Building operations in Paducah last month involved \$3,350, according to the estimates or permits issued. They follow:
Ed Grief, frame building on Kentucky avenue between Fourteenth and Fifteenth streets, \$1,500.

Parker's Appearance on Scene May Precipitate Old Time Fight, But Bryan Men Are Full of Confidence

Platform Continues to Be Center of Interest and Prohibition Plank Will Be Urged—Gray's Managers.

Denver, June 30.—Judge Parker, the last presidential candidate, is expected tomorrow and he will take charge of the fight by the conservatives against the radical platform. The situation indicates that the prevailing harmony will be shattered and an old-fashioned Democratic scrap will result. Anti-Bryanites expect Parker to strengthen their cause. They hope to control the resolutions committee and dictate the platform. Bryan men profess not to be afraid, and say Bryan will dominate.

Judge Marsy, of Wilmington, Del., and J. R. Beamish, of Philadelphia, Judge Gray's manager, stopped at Lincoln en route here. Bryan's friends argue this shows Gray's willingness to accept the vice presidency. Gray and Johnson headquarters will be opened tomorrow.

Prohibition Plank.
The fight over the anti-injunction plank in the Democratic platform is not the only struggle in which the committee on resolutions, and possibly the convention itself, may be involved.

It developed that the prohibition question is to be brought to the front and a desperate effort will be made to have a plank declaring in its favor placed in the platform. The prohibition movement will be headed by General James B. Weaver, of Iowa, who demanded of the recent Democratic convention of that state, that it declare in favor of prohibition. Weaver and his followers were not successful in their own state, but will bring the

matter up before the Democratic national convention. They claim to have a strong backing from a number of southern delegations and it is declared confidently by Weaver's adherents that if the Democratic national platform does not contain the prohibition plank it will only be for the reason that the hardest kind of fighting had been unable to secure its adoption.

Anti-injunction Plank.
The anti-injunction plank continues to provoke a large amount of discussion among the party leaders. While opinions differ as to the exact nature of the plank all are of one mind in saying that it shall be definite and specific statement. The friends of Bryan say that such of his critics as are already expressing themselves in fear of a radical anti-injunction plank are fighting the air.

The plank has not yet been written; has not been drafted and its form is still a matter which is under deep and careful consideration. It is said to be the desire of Bryan to consult as many prominent members of the party as is possible before and decisive action in formulating this resolution is taken.

Contests, Filed.
Notices of contests have been filed (Continued on Page Four.)

Handlers Urge General Strike of Railroad Men

Chicago, June 30.—A strike of all railroad men in the country is being urged by radical leaders of the handlers' union as a political expedient. The handlers' contract with the companies expires tonight. President Flannery, of the union, claims the railroads are playing politics to prevent giving the men concessions and wants all railroad men to strike as a notice to political parties that they want their demands respected. Radicals declare the strike will come sure, if the Democratic party refuses an anti-injunction plank in the platform.

Jesse Amis' Infant Son Dies of Summer Trouble.

The six-months-old infant son of Mr. and Mrs. Jesse Amis, of 535 South Second street, died Saturday night at 12 o'clock of summer complaint. The funeral was held Sunday afternoon and the burial was in Oak Grove cemetery.

Maggie Steed, frame building on Jackson street between Sixth and Seventh streets, \$1,000.
E. R. Bradshaw, frame building on Madison street between Nineteenth and Twentieth streets, \$400.
Fooks Lumber company, frame building on Monroe street between Tenth and Eleventh streets, \$400.
E. P. Gilson, frame building on Jefferson street between Twelfth and Thirteenth streets, \$200.

Hot Wave.

New York, June 30.—The hot test wave of the year is creating great suffering. Several deaths have occurred in 24 hours and there are hundreds of prostrations. The hospitals are overcrowded. "The poor, without ice, are suffering terribly."

Little damage is the result of the fire discovered in the new chute of the Illinois Central railroad this morning at 8:15 o'clock, but after a good fight the shop fire department downed the blaze. The fire was burning in the 300 tons of coal that are in the chute, and it is the theory that the fire started from spontaneous combustion. Two lines of hose were put on the fire, and it was drenched in a short time with little loss.

The fire was discovered by F. M. Barker, who has charge of the motor, which lifts up the coal to the bin, 70 feet high. When he reached the top he saw smoke, and immediately he began looking for the source. Jumping down on the coal he found it was hot, and the alarm was turned in. Fire Marshal George Bonduant and Captains Will Theobald, Harry Judd and John Whitlaugh with their reels raced to the chute. The fire was in an inconvenient place, but the men dragged and lifted the hose up the 70 feet, while the second was 500 feet long. The chute was erected recently by the railroad at a cost of \$20,000 to replace the old chute which was destroyed by fire. It will hold 600 tons, but it was only half full when the fire alarm was given. All the amateur firemen worked like Tarks and two lines of hose were lifted up to the fire in only a few minutes.

**SCANDAL WILL BE
PRECIPITATED BY
WILSON MYSTERY**

Philadelphia, June 30.—This city is threatened with a scandal in the highest society, the police assert, through the death of Dr. William Wilson, who was killed by poisoned alcohol him by express. The arrest of a prominent young man and woman, said to be brother and sister, is imminent. The police assert that Wilson got a large income by performing operations. It is believed he was killed in revenge by relatives of a woman operated on. If the arrests are made the police intimate that the names of scores of prominent persons will be involved.

THOMAS NOMINATED
Bowling Green, Ky., June 30.—(Special.)—Robert Thomas, of Muhlenberg county, was nominated at the Democratic convention today for congress from the Third district.

CLEVELAND MEMORIAL

Buffalo, N. Y., June 30.—A movement was started here to erect a fitting monument to President Cleveland. The aldermen passed a resolution for the project. Prominent men are giving hearty support.

Further Trouble in Mexico May be Averted by Presence of American Troops on North Bank of Grande

Mexican Regulars Are Pursuing Insurgents Through the Affected District—Revolution Serious.

Mexico City, June 30.—The announcement that American troops will patrol the Rio Grande quiets apprehension regarding an uprising. It is believed soldiers across the border will overawe the insurgents. At least 3,000 Mexican soldiers in the disaffected district are pursuing insurgents. It is believed the trouble will end shortly.

Troops to Border.
Washington, June 30.—The war department ordered troops sent to the Mexican border at Del Rio and other points to maintain order and prevent violation of the neutrality laws.

There is a possibility that the United States troops may be called on to arrest any revolutionists who may cross the border in an effort to escape the Mexican authorities. It cannot be learned that any actual orders to this effect have been given as none of the officials have anything to do with the matter is willing to discuss just what is behind one except that every step possible will be taken to see that the neutrality laws shall be enforced.

Troops to Be Ready.
United States authorities are sincerely working to this end and assurances have been received from the attorney general of the United States and Governor Campbell, of Texas, that everything will be done to compel the strict enforcement of the law. Several military posts are in proximity to the border of Texas touching the state of Del Rio, where the Mexican revolutionists seem to be doing most of their work, and more troops are ready for any service required of them.

Old Agreement as Basis.
Senior Godoy, Mexican charge at Washington, today had another talk with Acting Secretary of State Adair, at which the situation was discussed. Mexico and the United States have an agreement whereby the troops of either country may cross the boundary of the other in pursuit of hostile Indians which may serve as a basis for any steps that might be taken in assisting Mexico to capture the revolutionists.

Mexican Troops Active.
El Paso, Texas, June 30.—According to information from a reliable source officials' advice have been received in Juarez to the effect that 2,500 federal troops sent to Torreón, Coahuila, have taken the field in an effort to surround the parties believed

MARKED IMPROVEMENT EXPECTED IN BUSINESS CONDITIONS IN PADUCAH

Banks and Other Business Houses Have Weathered Storm and Pay Dividends on Stock.

Dividends will be declared today by the banks in Paducah and a number of corporations for the first half of 1908. Bankers, business and professional men agree that the next six months ought to see a marked improvement in all lines of business. It is believed that the country is close to the end of the depressed industrial conditions. As announced this morning the banks will pay the following semi-annual dividends:
First National bank, 7 per cent; City National bank, 6 per cent; Citizens' Savings bank, 5 per cent; Mechanics and Farmers Savings bank, 2½ per cent. Globe Bank and Trust company directors will meet this afternoon to declare the dividend. The Paducah Banking company passed its dividend to the surplus, as did the American-German National bank.

Meetings of the bank directors were held this morning and this afternoon to declare the dividends. Paducah banks were found to have held their own during the depression better than most cities of this size. Statements will be issued early tomorrow, showing the detailed condition of the banks. It was thought that the City National bank would add \$25,000 to the present surplus of \$100,000. The First National bank had not decided at press time whether to increase the dividend above the usual 7 per cent or pass the extra earnings to the surplus.

Building Operations.
Architects report a slackening in building operations, but one note

INFORMATION.

Information at the telephone exchange has become used to any calls from supplying a family with a cook to keeping tab on the baseball games but yesterday a call out of the ordinary came in. In a magistrate's office a bashful couple, after displaying their license, informed the magistrate they wanted to get married. Nobody was present, and the magistrate was in a quandary for witnesses. It was at the dinner hour, and few people were on the streets. Not to be outdone and lose the fee, the magistrate called up information and asked where he could get two witnesses to a wedding. Fortunately information kept cool, and as two "hello" girls were going off duty she sent them to the magistrate's office, and there the wedding was performed.

Troops Called Out.
San Antonio, Texas, June 30.—Orders were received at Fort Sam Houston calling out the troops.

Revolution No Fake.
Dallas, Texas, June 30.—Sam P. Morrison, for five years a resident of Blanco, Mexico, arrived here with his family. He declares that the outbreak in Mexico is no fake revolution, and believes that the Mexican soldiers are aiding the revolutionists. He believes, however, that President Diaz will be able to suppress the outbreak, but when he dies the revolution will be renewed and that then there will be a general uprising.

Former Policeman Dead.
While in Albany, Ga., Detective T. J. Moore inquired after Dave Cassell, a former citizen of Paducah, but learned that he died of a severe cold a year ago. Mr. Cassell was a former policeman for the Illinois Central railroad at the freight station, but removed to Albany several years ago. This is the first his many Paducah friends knew of his death.

Chicago Market.

	July—	High.	Low.	Clos.

FIRST GUN MAY BE FIRED BY TAFT AT YOUNGSTOWN, OHIO

Congressman Kennedy Trying to Get Affair For His District in September.

Friends Wait on Candidate in Vorys' Interest.

NO INFORMATION GIVEN OUT

Youngstown, O., June 30.—It is probable the Republican campaign will be opened here between September 1 and September 15. Secretary Taft promised Congressman Kennedy to try to have the national opening here. Kennedy is urging President Roosevelt to attend the opening.

Obvious Visit Taft.
Washington, June 30.—The most important conference held by Taft was that which he had with a delegation representing political organization of the Republican party in Ohio who came to Washington to urge the secretary to favorably consider Arthur Vorys in the selection of a national chairman.

At the conclusion of the conference although Taft did not indicate to the delegation what his intentions were, he authorized the members to telegraph Vorys requesting him to come to Washington and meet him next Wednesday.

Hitchcock Won't Talk.
Frank H. Hitchcock, Taft's Washington manager, arrived here from Chicago, and will be engaged for several days in the work of closing Taft's headquarters in this city. Hitchcock declined to discuss for publication the national chairmanship in any way. He said he expected to have a conference with Taft in a day or two, but pending that interview he could say nothing.

Every effort was made to learn something definite respecting the choice of a national chairman, but Taft himself said that no announcement will be made until the conference with the sub-committee of the national committee at Hot Springs, July 8.

His Last Day.
Washington, June 30.—Secretary Taft spent his last day at the war department. He explained many details of Panama matters to Secretary Wright. His resignation is effective at midnight.

Contest for Rectorship.

London, June 30.—Prof. William Osler Regus, professor of medicine at Oxford university, has been selected as an independent candidate for the lord rectorship of Edinburgh university. Winston Spencer Churchill, president of the board of trade, and George Wyndham, former chief secretary for Ireland, are respectively the liberal and conservative candidates for the office.

FARMERS SMILING

The gentle rain yesterday afternoon and last night had a wonderful effect in the restoration of vegetable life, and today the farmers are wearing a smile that will not rub off. The truck gardens and farms in McCracken county were badly in need of rain, and had the rain not come there might have been a shortage. The rain was a gentle one, and reports from over the county show that all parts of the county were blessed. More rain was needed, but the farmers are happy nevertheless. In the city the shower was appreciated as the dust was laid for once, and made the atmosphere cool.

THE SUN'S GREAT VOTING CONTEST.

1 VOTE FOR
M

Postoffice
Street No.
This ballot when properly filled out and brought or mailed to the Contest Department of The Sun will count as one vote.
VOID AFTER JULY 2.

Keep the Kitchen Cool

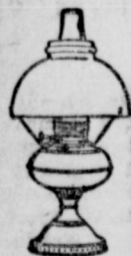

Why swelter over a glowing range in a stuffy kitchen, when a new Perfection Wick Blue Flame Oil Cook-Stove will do the family cooking without raising the temperature enough to be noticeable?

By putting a "New Perfection" in and allowing the range fire to go out, you may make this summer's kitchen work not only bearable, but actually a pleasure. The

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

produces an intense heat under the kettle or in the oven, but does not radiate heat in all directions as a coal range does—hence is used with comfort on the hottest summer day. Made in three sizes, and warranted. If not with your dealer, write our nearest agency.

The **Rayo Lamp** comes as near lamp perfection as possible to get. Gives a clear, bright light that reaches the farthest corner of a good sized living-room. Well made throughout of nickel-plated brass; perfectly safe and very ornamental. Warranted in every particular. If not with your dealer, write our nearest agency.

STANDARD OIL COMPANY (Incorporated)

Kentucky Horses in South America.

Lexington, Ky., June 30.—South America is to offer great inducements to Kentucky horsemen. This is borne out by the arrival here of Dr. Hoase, of the agricultural department of Guatemala, who will buy a carload of fine saddle and harness horses to ship to his country for breeding purposes. James B. Haggin, as already announced, will ship fifty thoroughbreds from Elmhurst farm here to Buenos Ayres, part of which will be sold and others to serve as nucleus for a breeding plant there. Other breeders may follow his example.

ELEVEN STARTERS

ENTERED IN BALLOON RACES AT CHICAGO SATURDAY.

Aeronautique Club Sponsor for the Sporting Event That Interests Whole Country.

Chicago, Ill., June 30.—Eleven starters are assured for the international ballooning race, to be held next Saturday, under the auspices of the Aeronautique club of Chicago and the Federation of American Aero clubs. This entry exceeds by two that of the championship event in St. Louis last October, the only big ballooning event ever held in America. The grounds will be paroled by Troop F of the First Cavalry.

The following are the entries:
Chicago—C. A. Coey, of Chicago, owner; George Bumbach, St. Louis, pilot.

San Antonio—Dr. Frederick J. Fielding, president Aero club of Texas, owner.

United States—Entered by Aero club of St. Paul; Colonel Shirley, of Louisville, Ky., pilot, assisted by J. L. Gribble.

America—Entered by Minneapolis Aero club; Captain P. S. Hudson, pilot.

Ville de Dieppe—Entered by Paul Lecler, of France; Major August E. Mueller, pilot.

I Will—Entered by Aeronautique club of Chicago; C. H. Perrigo, Chicago, pilot.

Illinois—Entered by Chicago Aeronautique club; J. L. Case, Chicago, pilot; Charles E. Gregory, assistant.

King Edward—Entered by Aero club of Canada; Lieutenant Preston, of the British army, pilot; Horace Wild, Chicago, assistant.

Columbia—Entered by Federation of American Aero clubs; Captain Martin Peterson, U. S. A., pilot; Charles Lechlitter, assistant.

Cincinnati—Owned by Norman G. Kenan, of Cincinnati; Leslie Haddock, pilot; George Hoakard, assistant.

Baldwin—Entered by Captain Baldwin, of Quincy, Ill.; piloted by the owner.

The record the balloons will be called upon to break or equal is that of the Pommern, which covered 872 miles from St. Louis to Asbury Park, N. J.

Many of the balloons entered in Saturday's race are larger and speedier than the winner of the last Gordon Bennett, and the Americans expect to beat the old record.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Two sizes, 50c and \$1.00. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.—R. W. Walker Co., Special Agents.

STREET WORK

ACCEPTED BY BOARD OF PUBLIC WORKS IN SESSION.

Tennessee Street Estimates Will Be Prepared at Once—Inspection Trip Planned.

Street improvements on Tennessee street from Third street to Twelfth street were accepted by the board of public works in session yesterday afternoon. G. W. Katterjohn executed a satisfactory maintenance bond and City Engineer L. A. Washington was authorized to make out the estimates of cost for the work against the abutting property owners. E. C. Terrell, the contractor, asked that Friday afternoon at 4 o'clock be the date for inspecting Twenty-second, Twenty-third and Twenty-fourth streets, between the Hinkleville road and Milledred street. President Rudy and Secretary Kolb were present in yesterday's meeting.

Hay's Hair Health

Never Fails to RESTORE GRAY HAIR to its NATURAL COLOR

No matter how long it has been gray or faded. Promotes a luxuriant growth of healthy hair. Stops its falling out, and positively removes Dandruff. Keeps hair soft and glossy. Is not a dye. Philo Hay Spec. Co., Newark, N. J.
FREE cake of HARFINA SOAP with each bottle and this ad. for 50c. at the following druggists:

J. & F. L. NIXON.

ANOTHER LIFE

CLAIMED BY TORREDO WAR IN WEST TENNESSEE.

All Fielder is Killed By Man He Charged With Being a Night Rider.

Clarksville, Tenn., June 30.—All Fielder was shot and instantly killed at an election precinct in the Fourteenth district of this county, by Cellis Rhinehart. The killing was the outcome of the local tobacco trouble. Fielder, who is a non-association man, accused Rhinehart of

being a night rider, and responsible for certain lawlessness alleged to have been committed in this county. Rhinehart denied the charge, and a few words passed between them, when Fielder is said to have called Rhinehart a liar, at the same time started towards him with an open knife. Rhinehart quickly pulled his pistol and fired at Fielder five times, four shots taking effect, and one grazing his collar. Fielder fell and died with an open knife in his hand. Rhinehart surrendered and was

brought to jail at Clarksville. Fielder was a man about 30 years old, and Rhinehart is 21, both prominent in this county.

DeWitt's Witch Hazel Salve. It is especially good for piles. Be sure to get DeWitt's. Sold by all druggists.

"Pa, is it better to be born lucky or rich?"

"I don't know. I've never been either."—Detroit Free Press.

My commission expires January 10, 1912. PETER PURYEAR,
Notary Public.

Daily Thought.

Praise is well, compliment is well, but affection is the final and most precious reward that any man can win, whether by character or achievement.—Mark Twain.

General Obaldia, of Panama, may not be the strongest man of his period, but he carried Colon.

Scientists report that the sun eclipsed ahead of the time they scheduled it. Funny that so regular a thing as the sun should act that way.

Cairo citizens are sore because the eclipse of the sun did not amount to much as a spectacle. A Cairo audience always was hard to please.

With the defeat of John Wesley Gaines, the people of the United States lose one of the leading contributors to the Congressional Record. It will add to the family pride of the progeny of some public men to be able to produce press clippings, showing that aforesaid public men have declined the vice-presidency, even though that high honor was never offered them.

Perhaps, Secretary Taft's chair will be sandpapered and revarnished in anticipation of his greater dignity and its promotion to the chief executive office. Assuredly, the country did not take it literally when it was announced from Washington that Gen. Luke Wright had succeeded to Secretary of War Taft's seat.

THE FINAL TEST.

One the whole, the conservatism of the Denver platform promises to be such that the campaign likely is to be fought out largely on the personality of Taft and Bryan.

This is the concluding paragraph of Raymond's letter from Denver to the Chicago Tribune. And the "personality" of Taft will be revealed in his record in office, and that of Bryan in bound volumes of his speeches on "tariff for revenue only," "free silver," and "government ownership of railroads." How well these records and speeches comport with the conservative wording of their respective platforms will be the final test of the fitness of candidates.

THE CARIBBEAN.

The Caribbean sea seems to be the "red light" district of the western hemisphere, and Uncle Sam has never seen the day since Porto Rico was taken that he has not had an extra force of naval police along its shores. Cuba to the north of it; Panama, where the big ditch is splitting the isthmus; and early Columbia, and impudent Venezuela, all require constant attention, while the little island republics scattered about in the neighborhood are everlastingly doing something to jeopardize American and European interests. It is reported that the United States has more than 6,000 men within striking distance of Venezuela at present. How the administration views the conduct of President Castro was made manifest in the president's special message on the subject; and the president may be depended on to avail himself of every opportunity to

make Venezuela feel the discomforts and convenience of our ill will.

A SANE FOURTH.

Will it be a sane Fourth, full of patriotism—and fire works, too—but devoid of tetanus producing features? We desire to call attention to the fact that Paducah has a cannon cracker ordinance, that makes it a misdemeanor, as well to sell dangerous explosives, as to use them. The police will arrest all dealers engaging in the traffic. The life of the children is precious, and while we are usually ready to make any sort of sacrifice for the country, we do not like to sacrifice the children just to make a noise.

TAFT AND THE COLORED VOTER

Col. Henry Watterson, whose optimistic spirit one day made him advise the Democratic national convention to open its arms to the colored brother and welcome him into the opportunity to show his political strength and rebuke some fancied slight at the hands of the Republican party, is answered in an editorial, which appeared in the Chicago Tribune, quoting an expression from Booker T. Washington. It says:

"In the last analysis the negro vote will go to Mr. Taft because the negroes will realize in the campaign they have nothing to expect from the Democratic party. With the Democratic convention made up in large part of southern representatives of the Tillman-Vardaman type, it will be impossible for the negro to get anything. If he is to get anything he will have to look to the Republican party and he will naturally vote for the Republican candidate—Booker T. Washington."

"The common sense of the view point here expressed by Mr. Washington is so obvious that comment would be unjustifiable if the negroes of Chicago had not recently been treated to a good deal of rant against Mr. Taft coupled with oratorical threats that the negro vote would bolt the Republican ticket rather than go to him. As The Tribune remarked when these platform outbursts occurred, they were largely the result of an egoism inflamed by a little brief notoriety."

"There is a group of leaders among the negroes of the violently radical and irrationally idealistic variety. These men may be borne with because their intentions are good if their social and political wisdom is doubtful. But the political boss among the negroes who is disposed to trade upon prejudice for his own profit to his people's hurt should be suppressed."

"There is no alternative in the mind of any intelligent negro to voting the Republican ticket. Even if the attacks upon Mr. Taft were not unfounded and unjust, even if it could honestly be charged against him that he is inimical to the true interests and political and social rights of the negro, which he is not, the negro would only injure his own cause by going over to the Democracy of Tillman, Bailey, and Vardaman."

LATE RIVER NEWS

The Evansville packet, John S. Hopkins, broke down just above Good-bay this morning while on her way to Paducah. She will come on to this place and will be repaired before going back. It will probably be several days before she re-enters the Evansville and Paducah trade.

A letter has been received by the wharfboat company stating that the City of Savannah will start in the St. Louis and Tennessee river packet trade about July 13. This goes to show that the Tennessee river trade is the best of any of the river trade. There are now four packet boats going up the Tennessee as far as Riverton and Waterloo, Ala., which are about one-half mile apart. The City of Sallito, the Chattanooga, the Kentucky, the Clyde and the City of Savannah will make five. Passengers and freight shippers can get a boat for the Tennessee river on Tuesday, Wednesday, Friday and Saturday of each week, which makes it almost as convenient as traveling by rail.

The John Bertram arrived from Helena, Ark., this morning at 11:30 o'clock to go on the marine ways for distance of Venezuela at present. The Bertram is a transfer boat. The DeKovan went to Helena to take the Bertram's place while she is here being repaired.

No man on earth is rich enough to enjoy paying taxes.

(Continued from last issue.)

The great plates were locked in, and the group repaired to one of the offices, where for hours the inventor elaborated his scheme of control, the mechanical means of which were to be worked out and drawings made by the engineers. And as they toiled over their plans, there spread from mouth to mouth throughout the strange colony the story of the marvelous conception, until even the most prosaic workman found himself dreaming and speculating over his task. Before dusk had crowded the light from the skies, the Columbia, under a full head of steam, picked her way out to meet the ocean swells, and headed for Miami, where she was to send a message to Washington calling for strangely assorted supplies and notifying the anxious naval men that the dry dock would not be needed.

There where the heart of the American government beat was nothing but anxiety and suspense. Each succeeding day's events had made it more certain that Japan would force the issue to war, and, like an athlete, was stripping and training for the fight. The men who had taken upon themselves the tremendous responsibility of intrusting the nation's defense to a single discovery, and were backing it with funds for which they must account some day, saw the days slipping by, and grimly realized that they were irrevocably bound to the success or failure on the key. It was too late now to attempt other projects, and glory or defeat hung suspended on the issue.

No reports had been received, and no news had come from that determined little army that had sailed away to the south. Hence it was with something of a shock that the first word received was to the effect that the dry dock could not be utilized. It seemed like the first dread handwriting emblazoned on the wall, foretelling failure, disaster, disgrace and war, and the president as he read it quoted with inexpressible sadness: "Mene, Mene, Tekel—" and his half-opened lips framed the rest.

Then followed the requisition for supplies, and once again before any detailed report had been received came another demand. The island in the solitude seemed an insatiable monster, devouring national funds and giving back nothing in return. More days went by, bringing nothing save distressing stories from the orient, where a clash had taken place at Che-nulpo between Japanese sailors and American marines. This was of such serious nature that apologies were tendered the Japanese embassy, and then from the entire country burst a storm of protest and reiterated criticisms of the administration, which was contumaciously accused of showing the white feather. From the western coast came appeal on appeal, the whole Pacific seaboard calling attention to its unprotected state and the impotence of its danger.

Distressed and lame at the dearth of information, the secretary of the navy was on the point of sending a message to Brooklyn demanding news, when he received from Miami the same message that in two nights more the admiral would report in person. That he bore nothing but a tale of disappointment was surmised from the closing words of the admiral, who requested that all those who had been party to the project should assemble secretly as before at the White House after nightfall.

Haggard and worn, they came together, read the brief dispatch and waited. The president, his melancholy face set and grave, looked at them from cavernous eyes; but could offer no consolation. There was nothing to do but wait—sit and wait—for that messenger of ill omen who was to sound the knell of hope and tell what letters had been combined to spell the word "failure." In hushed voices they discussed the situation, and tried to evolve some project for its alleviation. And then without preliminary announcement the door swung open under the hand of the president's private secretary, and there stood framed in it the huge form of the admiral, his hand at salute, his eyes shining in triumph, and back of him stood Norma, her father and Jenkins. Brocton advanced to the president's desk, and faced him and the secretary of the navy.

"I have come to deliver my report in person, and with me are those who have given this nation the greatest engine of war that science has ever known."

The room was electrified; but the president sprang to his feet and threw up a restraining hand commanding silence.

"Well," he queried, inviting further words; but Brocton's place had been taken by the shriveled figure of a diminutive old man, who put a trembling hand out to his friend and in a voice of affection, hushed but exultant, exclaimed:

"Paul, Paul, we've made good!"

The other's hand came out to meet his, and the only sound heard was the president's fervent, "Thank God! Thank God!"

The gates of repression and emotion were These men had been

tried to the breaking point, and now, when in one moment their skies had cleared, they gave way. They hugged each other, repeatedly shook hands, and in the eyes of some there were unrestrained tears. They crowded round the little group from the key and admonished each other to silence.

"Gentlemen," said the inventor, "we have rendered warships useless. We need no armor! Increased speed on the water's surface of no value to us. We have created a machine that flies, not a thing of gas, of planes, or a kite. We cannot explain here as well as if you were to go with us and see it, and what use we have made of your money."

The secretary of the navy looked disappointed. His mind was too intensely practical to jump to happy conclusions. "Can a flying machine whip a battle ship?" he asked, and would have continued; but the admiral brought his fist down on the desk with a mighty bang.

"This one alone might do it! The others we'll have ready before they are called upon to whip the world." He stopped as if abashed by his own enthusiasm and lack of etiquette, looked at the president and the secretary apologetically, and then in a less tempestuous voice went on: "All we ask is that you come with us—so to one may see yet, of course—and then you'll have no cause for complaint."

(To be continued in next issue.)

BATTLE LOST

BUT WAR JUST BEGUN, DE-CLARES SENATOR CARMACK.

Defeated Candidate Says Platform and Legislature Must Be Considered.

Memphis, Tenn., June 30.—A special to the Commercial-Appeal from Nashville says:

Senator Carmack made the following statement:

"Neither Mr. Armistead or myself have instituted or suggested any contest anywhere. I have heard, just as others have, of protests against corruption and fraudulent practices in various counties, but I have never contemplated making a fight to promote my own nomination or to defeat the nomination of Governor Patterson against a majority of the popular vote. There is no way provided by which the corrupt and fraudulent vote can be sifted out of the mass, and I shall not attempt it."

"But my candidacy is but one feature of this contest. The Democratic platform is yet to be made. Democratic legislators are yet to be nominated, instructed and elected. The fight for the utter abolition of the whisky traffic and for other vital reforms must go on without a moment's pause. The enemy has won a Pyrrhic victory. This battle has been lost, but the war has just begun."

"They have immensely strained and weakened their resources to gain it. We are as strong as ever and can put up as good a fight every Saturday as we did last Saturday."

Notice to Contractors.

Bids will be received by the Board of Public Works at their office in the city hall on Tuesday, July 7, 1908, at 2 o'clock, for the construction of Tenth street from Broadway to Kentucky avenue, with either bitulithic, vitrified brick or asphalt material, as may be determined by the general council; and also for concrete sidewalks on Tenth street from Broadway to Kentucky avenue, all as per plans and specifications in the city engineer's office, under the ordinance authorizing same.

BOARD OF PUBLIC WORKS.

By L. F. Kolb, Secretary.
L. A. Washington, City Engineer.

LOUISVILLE SELECTED.

American Library Association Will Hold Its Sessions There in 1909.
Minneapolis, Minn., June 30.—The American Library association, at its final meeting at Lake Minnetonka selected Louisville, Ky., as the next meeting place. Following are the new officers:

President, C. H. Gould, McGill college, Montreal; vice-president, N. D. C. Hodges, Cincinnati; secretary, J. I. Wyer, Albany, N. Y.; trustees, W. W. Appleton, New York; T. D. Jones, St. Louis; W. T. Porter, Cincinnati.

Notice to Saloon Keepers.

It has been the custom to permit saloon keepers desiring to renew their semi-annual license to continue the operation of their saloons pending the action of the general council on the applications for renewal, but this does not relieve all applicants for renewals, of the duty to deposit the license fee with the city treasurer by the first of July; and, therefore, all saloon keepers expecting to renew their license are notified that the license fee must be deposited with the treasurer by July 1.

ROBERT S. HICKS,
License Inspector.

FIRE CHIEF WOOD BUSY AGAIN WITH HIS PET MEASURE

Not to be outdone, Fire Chief James Wood is busy during his spare hours preparing the ordinance creating the office of building inspector. This is the second time Chief Wood has written the ordinance, which requires 80 typewritten pages, and was dubbed in the council "The White Elephant." Its length is just the reason why it is necessary for Chief Wood to buckle down to work and prepare the ordinance again, but with his usual pluck he has started to work to complete it.

The ordinance was introduced in the council last year, but owing to its length no councilman ever dared to read it, and whenever it was picked up there was a motion to adjourn. So that the ordinance might be understood each councilman and alderman swapped the ordinance about to read it during spare hours, but somebody stuck it in a pigeon hole and it never came forth again. Seeing that it was hopeless to find the ordinance Chief Wood has begun work copying the original manuscript.

The ordinance provides for many good features, and members of the general council admit that such an ordinance is needed in Paducah. The office of building inspector is created but his salary chiefly comes from fees, and the office will nearly be self-sustaining. Owing to the length of the ordinance the general council will not get it until about two weeks.

PARKER'S APPEARANCE ON SCENE

(Continued from page one.)

with the national committee involving 50 seats, but of this number the Pennsylvania, Idaho, 6; Illinois, 20, and New York, 11.

Raymond's Dope

Chicago, June 30.—"Raymond" in the Tribune says: "William Jennings Bryan is certain to be nominated for the presidency by the Democratic national convention in Denver. The membership of the convention will therefore be 1,002. Applying the two-thirds rule, the successful candidate will have to have 668 votes."

"According to figures of the Bryan managers, the Nebraska leader now has 564 votes of solid delegations actually instructed for him. Besides that they claim instructions from 11 scattering delegations in Massachusetts, North Carolina, Ohio and Pennsylvania."

"There are 122 uninstructed delegates supposed to be for Bryan. This gives Bryan, according to the figures of his managers, 797 votes. Then there should be added 18 more delegates from Montana and North Carolina who were still to be elected when the figures were made up this morning, but who are confidently claimed for Bryan."

"This makes a total of 815 votes for the Nebraska leader, which are said to be absolutely certain. But there are 40 scattering votes in Massachusetts, Rhode Island, Ohio, Vermont, Florida, Alabama and Maryland which are believed to be for Bryan as a matter of personal preference, although they are not instructed."

"This makes Bryan a total of 855 votes, or nearly 200 more than enough to nominate him."

"The question of a vice-presidential candidate is still in the air, and may remain so for some days. Bryan, as I have said before, unquestionably favors Judge George Gray, of Delaware, but he would be satisfied with any other eastern man, including Lieutenant Governor Chanler, of New York, former Governor Douglas, of Massachusetts, or Charles P. Towne, of New York, and failing them, Tom L. Johnson, of Ohio, or John W. Kern, of Indiana."

"Bryan will be the eighth candidate of his party to be nominated for president on the first ballot. The list of conventions in which the nomination was made on the first ballot, with the years they were held in and the nominee, reads as follows:

Baltimore.....1832 Jackson.
Chicago.....1864 McClelland.
Baltimore.....1872 Greeley.
St. Louis.....1888 Cleveland.
Chicago.....1892 Cleveland.
Kansas City.....1900 Bryan.
St. Louis.....1904 Parker.

Real Keynote.

Lincoln, Neb., June 30.—The Traveling Men's Bryan club will give a reception to the Nebraska Friday night. Bryan will deliver his real keynote speech of the campaign. His remarks will be a tip to the resolutions committee of the Denver convention. It is believed Bryan will be notified of his nomination here. Partisan antipathy prevented it in 1900, but Bryan has won Lincoln now.

Kalaw, editor of the Manila Renacimiento, finished their study of the duma and left here today for Berlin and Paris. They also will visit Switzerland and Egypt. The Filipinos met a number of the leaders of the duma. Their trip was undertaken at the initiative of the war department at Washington with the object of broadening the outlook of Filipino leaders. Senor Quezon was impressed by his observations of the Russian policy toward Poland and Finland, the severity of the police regime and the results of the policy of the first and second dumas. He spoke of the advantages of the American attitude toward the Philippine islands and of the necessity of the Philippines going slowly in the development of legislative anatomy.

Notice to Property Owners.
An inspection of the grading and traveling work done by Contractor E. C. Terrell on Twenty-second and Twenty-third streets from the Hickleville road to Mildred street, and on Thirteenth street from Flournoy to Terrell street, will be made on Friday afternoon at 4 o'clock, July 3, 1908. Interested property owners are notified accordingly.

BOARD OF PUBLIC WORKS.
By L. F. Kolb, Secretary.
L. A. Washington, City Engineer.

BOY, 12, SAVES 5 FROM LAKE.
Ohio Lad Braves Heavy Storm on Erie to Effect Rescue.

Loraine, Ohio, June 30.—Alone in a rowboat Le Roy Le Barron, 12 years of age, rescued three men and two women whose lives were in danger by reason of the capsizing of their

saliboot off the harbor in Lake Erie here today.

The boy saw the vessel tip over in a sudden squall. He ran to the beach, got in a rowboat and, despite the heavy sea, rowed to the wreck. He arrived just in time, as the two women were on the verge of giving up their hold on the overturned craft. Friends of the boy will endeavor to obtain a Carnegie medal for him.

The persons who were rescued were Mr. and Mrs. W. J. Le Barron, the boy's parents; Thomas Forbes and Councilman and Mrs. George A. Roth. The women fainted after they had been assisted into the rowboat.

ROY L. CULLEY & Co.

415-417 BROADWAY
OUTFITTERS TO MEN AND BOYS

THINKING of a trip the Fourth, or any time soon? Then these great clearance sales should appeal to you, as we are offering reductions on everything in our splendid stock of from 30% to 40%.

We shall be open Friday night to attend to your wants, but close Saturday at noon.

THE LOCAL NEWS

—Forms for real estate agents for sale at this office.

—Dr. Gilbert, osteopath, 400 1/2 Broadway. Phone 196.

—We can give you the finest carriages in the city for wedding, ball and theater calls. Our prices are lower than those charged for like service in any city in America. Our service is second to none, and the best in this city. Palmer Transfer Company.

—Visit Page's best order restaurant, 123 South Second.

—For facial massage, scalp treatment and shampooing and for the full line of the Franco-American Hygienic Toilet requisites, consult Mrs. Bahr, 621 Monroe.

—Cameras, Cameras, Cameras, and kodak supplies of all kinds at R. D. Clements & Co.

—We have just received a new stock of metal designs, at all prices. C. L. Brunson & Co., 529 Broadway.

—To rid your chicken house of mites and lice, use Lee's lice killer. M. J. Yopp Seed Co.

—City subscribers to The Daily Sun who wish the delivery of their papers stopped must notify our collectors or make the requests direct to The Sun office. No attention will be paid to such orders when given to carriers. Sun Publishing Co.

—For house numbers, door plates, brass stencils, brass and aluminum checks of all kinds, rubber type signs, markers. See The Diamond Stamp Works, 115 South Third. Phone 358.

—The last engine of the Tennessee Central railroad, which the Illinois Central failed to purchase, was returned this morning. The engine was No. 1329, and has been used by Engineer John Mulvin on the Cairo-Paducah run. Engineer Mulvin has had the engine for three years, and it was with regrets that he gave his pet locomotive up.

—Vandals visited the home of Mrs. J. H. Fowler, 619 Kentucky avenue, last night and stole a beautiful large fern from a vase that sat near the entrance to the yard.

—Decorators have finished the auditorium of the First Christian church with the exception of some final touches, but the work in the vestibules, doors and exterior will prevent the use of the church before Sunday week. It will be a beautiful interior and when the church is turned over to the congregation an appropriate dedicatory service will be held.

—Fireman Bud Gibson, of the Central station, will return to work tomorrow morning after spending his week's vacation with relatives at Murray. Fireman Noah English, of the No. 4 station, will go off duty for his annual week's outing.

—Raymond, the 14-year-old son of Henry Mammen, Jr., broke his right arm near the wrist while playing at a spring-board at his residence, 416 South Fifth street.

Fine Cigars in a Fine Case

It is an old saying that "clothes do not make the man," but when it comes to cigars, and the facilities for storing them and keeping them in condition, the reverse is true. You can take the best cigar in the world and, unless it is kept just moist enough, the bouquet is entirely lost.

We have just installed the finest and largest cigar case and humidifier in West Kentucky. The growth of our cigar business and the immense stock which we carry made it necessary. More than ever, ours is

"The Cigar Store of Paducah."

IN SOCIAL CIRCLES

Princeton Wedding.

Mrs. Charles Frederick and Miss Mae Frederick, of this city, are in Princeton to attend the wedding today at noon of Miss Elizabeth Pickering, known here from frequent visits, to Mr. James B. Greer, of Memphis. The couple will go to Memphis and Nashville after the wedding.

Hallie Ermine Rives.

Mr. Post Wheeler, second secretary to the American legation in Tokio, and his wife, who formerly was Hallie Ermine Rives, the Kentucky novelist, are in Washington on a visit. Mrs. Wheeler is a cousin of Miss Mayne Baynham, public librarian of this city, and is known to many persons here from visits she has made to Paducah.

Rogers-Trent.

Miss Beulah Rogers and Mr. John Trent were married this morning at 8:30 o'clock at the residence of the bride's aunt, Mrs. Charles T. Graham, Ninth and Clark streets. Though a quiet home wedding attended only by the relatives and intimate friends, it was beautiful in its appointments. The ceremony was performed by the Rev. S. B. Moore, pastor of the First Christian church. Palms, ferns and sweet peas were used prettily in the house decorations. The bride wore a traveling gown of tan, with hat, gloves and shoes to match, and carried a shower bouquet of white sweet peas. After the ceremony Mr. and Mrs. Trent left for St. Louis, where the bridegroom lives, and where they will make their home. Paducah loses one of its most attractive young women in Miss Rogers, who has lived here all her life. Mr. Trent formerly was employed with the Illinois Central railroad here and has a promising future in St. Louis.

Mayor Smith's Brother-in-Law Weds.

A Springfield, Ill., dispatch says: "Charles R. Rose, son of Secretary of State James A. Rose, went to Chicago secretly Saturday morning with Miss Blanche Conner, whom he married shortly after arriving there."

"News of the marriage came in telegrams to Mrs. Charles G. Gay and the young man's father. The messages said the couple would return to Springfield Tuesday, but did not state where or by whom the ceremony was performed in Chicago."

"The young woman's home is in Princeton, Ill., but she has resided in Springfield for several years, holding a position as stenographer for the state board of agriculture. Previous to leaving for Chicago after midnight the couple attempted to secure a marriage license in this city, but the county clerk could not be aroused at that hour. The wedding was a surprise to their friends and relatives."

Mr. Rose is the brother-in-law of Mayor James P. Smith.

Miss Ware's Record.

Superintendent J. A. Carnegie, of the public schools, received a statement this morning from the Leland Stanford university that Miss Cassandra Ware had passed in all of her studies with good percentages. Miss Ware was a former student in the fifth school, and when she entered the university she was received on the recommendation of the school. The statement was such as is sent out to all of the preparatory schools informing them of the success of their representatives. Miss Ware entered the university last February. She resides at Maxon Mills.

Mr. Roy Prather, ticket agent at the Union station, will leave Friday for Colorado Springs and Denver to spend his vacation.

Mr. and Mrs. Perry Melan, of North Eighth street, have gone to Murray on a visit to relatives and friends.

Hon. McD. Ferguson, of La Center, was in Paducah today en route to Louisville to attend the meeting of the railroad commissioners.

Circuit Judge William Reed went to Benton this morning to hold court. Mrs. George Bier and son, Jesse, will arrive tomorrow on a visit to Mrs. Van Cullom and Miss Ruth Benson, 722 South Fifth street.

Mr. and Mrs. Clements Bleich have returned to Jackson, Tenn., after a visit to Magistrate and Mrs. Bleich, parents of Mrs. Clements, 907 Clark street.

Mr. M. Tashner and family and Master Alvin Pettet left this morning for Naples, Tex., to reside for the summer.

Dr. Frank Boyd has gone to Frankfort for two days on business.

Mr. Lal D. Threlkeld, of Smithland, alternate Democratic elector for the first district, was in the city today on his way home from Dawson Springs.

Attorney A. E. Boyd went to Woodville today in the interest of his candidacy for county attorney.

Attorney C. C. Grassham will return tonight from Indianapolis, where he has been arguing a case before the United States circuit court.

Attorney Hal S. Corbett is expected.

Want Some GO?

Mrs. Victor Voris and daughter, Elele, have returned from a round trip on the steamer Clyde.

Mr. J. H. Shelly, of Dallas, Texas, is visiting his daughter, Mrs. Victor F. Voris.

County Judge R. T. Lightfoot married Miss Mary E. Price and Mr. J. H. Ham in his office this afternoon at 2:30 o'clock.

BUSINESS COURSE FOR HIGH SCHOOL TO BE DISCUSSED

BUSINESS

Mid-summer business to come before the school board at its regular meeting next Tuesday evening will be limited to a few questions that need immediate consideration. The most pressing of these is the question of putting new floors in the Jefferson building, at Eighth and Harrison streets. To make this improvement will cost \$800 or more and the board is not flushed with funds at present. The floors there now are dangerous to walk upon on account of splinters and mopping them is a difficult undertaking.

Another question the board may discuss is that of a business course in the high school. Some of the members believe that a course in shorthand and typewriting would do more to hold boys and girls in the high school than any other feature that could be added. If this course is added it is probable that a combination teacher would be secured, who could teach other branches as well as stenography.

NEWS OF COURTS

In Police Court.

The docket in police court this morning was: Carrying a weapon concealed—Will Gaines, continued until tomorrow. Breach of peace—Cora and Jim Bumphus, continued until tomorrow. Using insulting language—James A. Husten, continued until tomorrow.

KY. MIDDLING

Paducah men are interested in the Kentucky Middling railroad only as agents in the reorganization of the road, according to Mr. J. C. Flournoy, who returned from Central City last night, where a meeting of the directors of the road was held. It became necessary for the owners of the railroad to reorganize the company, and as Kentucky lawyers and business men were the best adapted to that end, the Paducah men were chosen. When the reorganization is perfected the local men will cease their connection with it.

HIGH LICENSE FOR LOUISIANA.

Shattuck-Gray Bill passes the Senate 29 to 4.

Baton Rouge, La., June 30.—That Louisiana shall be a high license state for the next two years at least was finally decided by the assembly last night when the senate passed the Shattuck-Gray liquor bill by a vote of 29 to 4. This measure has passed the house and is known to have the governor's approval. It fixes the minimum parish license at \$500, minimum state at \$200, with maximum licenses running up to several thousand dollars each.

Attention, Knights of Columbus.

Meetings during the months of July, August and September will be held only on the second and fourth Wednesday evenings of each month. Be governed accordingly.

NEW PRINCE CHRISTENED.
Howls Lustily During the Ceremony Which Was Carried Out in Pomp.

La Granja, Spain, June 30.—The christening of the infant son of King Alfonso, under the name of Jaime, took place in the chapel house here with all the pomp and ceremony of the Spanish court. The program substantially was identical with that at the christening of Prince Alfonso, of the Austrias, on May 18, 1907, except that no foreign special missions were present.

Prince Alfonso attended the ceremony in the arms of his governess and howled lustily throughout the proceedings. In contrast to his little brother, who was most quiet.

End Near for George H. Daniels.
New York, June 30.—Word was received here from Lake Placid, in the Adirondacks, that George H. Daniels, for many years general post agent of the New York Central, is critically ill. Dr. J. Whitton Wright, who has been in attendance upon Mr. Daniels, said that all hope of his recovery had been abandoned.

The Evening Sun—10c a Week.

Whose Say-so Is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone and exclusively as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives.

Dr. Pierce's medicines, however, form a single and therefore striking exception to the above rule. Their claim to the confidence of invalids does not rest solely upon their owners' and makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle-wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

In favor of Dr. Pierce's medicines is the frank, candid, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

WHAT THEY CURE. People often ask "What do Dr. Pierce's medicines cure?"

Briefly, the answer is that "Golden Medical Discovery" is a most potent alterative, or blood-purifier, and tonic, or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder curing a large percentage of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is generally successful in effecting cures. In fact the "Golden Medical Discovery" is without doubt, the most successful constitutional remedy for all forms of catarrhal diseases known to modern medical science. In Chronic Nasal Catarrh Dr. Sage's Catarrh Remedy fluid should be used for washing and cleansing out the nasal passages while taking the "Discovery" for its blood cleansing and specific, healing effects upon the mucous lining membranes. This combined local and general treatment will cure a very large percentage of the worst cases of chronic nasal catarrh, no matter of how many years' standing they may be.

As to the "Favorite Prescription," it is advised for the cure of one class of diseases only—those weaknesses, derangements and irregularities peculiar to women. It is a powerful, yet gently acting, invigorating tonic and nerve-

For weak, worn-out, over-worked women—no matter what has caused the breakdown, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, strong, vigorous condition of the whole system.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most of our obstinate and most fatal diseases, if we would properly investigate them; and, in confirmation of this firm conviction, he points with pride to the almost marvellous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Not less marvellous in the unparalleled cures it is constantly making of woman's many peculiar affections, weakness and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unqualified testimonials contributed by grateful patients who have been cured by it of leucorrhea, painful periods, irregularities, prolapsus and other displacements, ulceration of uterus and kindred affections, often after many other advertised medicines had failed.

Both these world-famed medicines are wholly made up from the glyceric extracts of native medicinal roots, found in our American forests. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. What is said of their power to cure the several diseases for which they are advised may be easily learned by sending your name and address to Dr. R. V. Pierce, Buffalo, N. Y., for a little booklet which he has compiled, containing copious extracts from numerous standard medical books, which are consulted as authorities by physicians of the several schools of practice and their guidance in prescribing. It is FREE TO ALL. A postal card request will bring it.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." They are the original Little Liver Pills first put up by Dr. Pierce, over 40 years ago. Much imitated, but never equaled. They are tiny sugar-coated granules, easy to take as candy.

Feather Works Its Way Out.

Hopkinsville, Ky., June 29.—Several days ago the baby of Mr. and Mrs. Rob. Mason, of this city, developed a very sore throat. The parents thought it was diphtheria and sent for a physician who promptly stated that there were no indications of diphtheria but there were evidences that a boil was forming. The swelling grew worse and worse and the head of the boy appeared on the child's neck and just under the ear. A strong poultice was kept on for a day or two for the purpose of drawing it to a head, and one day recently Mrs. Mason saw something sticking

out of the boil and pulling at it she finally pulled out a feather nearly two inches long. The feather was from a goose and the child had evidently gotten it out of the bed in some way and swallowed it. It had stuck in the baby's throat and worked its way entirely through. The child is now rapidly recovering.

Money makes the mare go—and sometimes she goes to the horse doctor.

Some people wouldn't be so careful about their actions if it wasn't for the gossip.

S.S.S. NATURE'S PERFECT TONIC

There is scarcely any one, no matter how vigorous and healthy, who does not need a tonic sometimes. Little physical irregularities upset the system, the appetite fails, digestion is poor, the body feels tired and worn out, and other unpleasant symptoms give warning that the system is disordered and needs assistance to ward off, perhaps, some serious sickness or ailment. S. S. S. is recognized everywhere as the best of all tonics, nature's medicine, made entirely of healing, cleansing, invigorating roots and herbs, a systemic remedy without an equal. S. S. S. has the additional value of being the greatest of all blood purifiers. It re-establishes the healthy circulation of the blood, rids the body of that tired, worn-out feeling, improves the appetite and digestion, and brings about a return of health to those whose systems have been weakened or depleted. S. S. S. acts more promptly and pleasantly than any other medicine, and those who are run down in health should commence its use at once. It will thoroughly purify the blood and tone up the system. S. S. S. is admirably suited for a systemic remedy because it is free from minerals; it may be used without harmful results by persons of any age, and no unpleasant effects ever follow.

PUBLIC SCHOOLS ARE UNDER FIRE

National Educational Convention Uses Strong Language.

Industrialism Is Basis of Nation's True Strength, Says Andrew S. Draper, of New York.

SCHOOL SYSTEM DEFORMED.

Cleveland, June 29.—The delegates to the convention of the National Educational association were busy today.

One of the interesting features of the program, although not a part of the national convention, was the spelling contest by eighth grade pupils in which fifteen representing each of the four cities—Cleveland, Pittsburgh, New Orleans and Erie, Pa.—entered. At first there was a written contest of 100 words and then oral spelling of about 250 words. Cleveland won with a total of thirty-eight errors. Pittsburgh second, forty-seven; New Orleans third, sixty-six; Erie, fourth, eighty-five.

Mae Thrushy, of Pittsburgh, and Marie Bolden (colored) of Cleveland, had perfect scores, while three missed but one word.

Andrew S. Draper spoke on the "Adaptation of the Public School to Industrial Ends." He said in part:

Industrial Schools. Andrew S. Draper, commissioner of education of the state of New York, spoke of "The Adaptation of the Schools to Industry and Efficiency." He said in part:

"When but one-third of the children remained to the end of the elementary course in a country where education is such a universal passion, there is something the matter with the schools. When half of the men who are responsible for the business activities and who are guiding the political life of the country tell us that children are not able to do any definite thing required in the world's real affairs, there is something the matter with the schools. When work seeks workers, and young men and women are indifferent to it or do not know how to do it, there is something the matter with the schools.

"Industrialism is the great basis of a nation's true strength and real culture. Knowing this, we have seen that there is not sufficient attitudinal between the educational and the industrial systems of the country. We have seen the indefinite expansion of instruction and the unlimited multiplication of appliances leading to literary and professional, and managing occupations, without any real solicitude about the vital foundations of the nation's happiness and power. A situation manifestly unjust to the greater number, even unjust to those for whom it has done the most, has resulted. Notwithstanding our boasted universality of educational opportunity, there has grown up an absurd hiatus in the educational system, which denies the just rights of the wage-earning masses and grievously menaces the industrial efficiency and the material prosperity of the country.

"The school system has grown deformed; and it is one-sided and not broad enough at the base. The trouble is not that the higher institutions have grown abnormally. They are doing what colleges and universities ought to do. They are not doing what they ought not to do. Free universities have become the finest expression of the souls of great states, and they are beginning to be the expression of the souls of great cities, in all parts of the country. Nor is the difficulty in the secondary schools, although they are affected by it. The ailment is in the elementary schools.

Use of Education. Nathan C. Schaeffer, of Pennsylvania, spoke of "Education for Avocation." He said in part:

"The laboring classes are striving to get an eight hour day. In some cases they have already won this concession. Whether the victory shall prove a blessing or a curse will depend upon the way in which the remaining hours of the day are spent. If the hours which are not devoted to work and sleep are spent in dissipation and riotous living, the eight hour day will prove a curse instead of a blessing.

"I live in the richest agricultural country in the United States, the country that is a congressional district by itself and that has more money deposited in its national banks than any one of seven southern states that might be named. One of its leading industries is the growth and manufacture of tobacco. As soon as the law allows, and sometimes before, the legal age is attained, the boy and the girl leave school to begin work upon the tobacco. The owner of one of the tobacco factories assures me that during the noon hour the telephone is kept in constant use by the young people who are anxious to secure seats upon the roof garden and at the vaudeville show. I have no quarrel with the young people who seek recreation during the hours which are not devoted to bread winning. I

All the patent medicines and toilet articles advertised in this paper are on sale at **McPherson's Drug Store** Fourth and Broadway.

THE COME AND SEE SIGN

This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass.

What Does This Sign Mean? It means that public inspection of the Laboratory and methods of doing business is honestly desired. It means that there is nothing about the business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound. Is it a purely vegetable compound made from roots and herbs—without drugs?

Come and See. Do the women of America continually use as much of it as we are told?

Come and See. Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick women are asked to write?

Come and See. Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential?

Come and See. Have they really got letters from over one million, one hundred thousand women correspondents?

Come and See. Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women?

Come and See. This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

have heard of industrial establishments in which it takes twenty-two persons to make a shoe. I have never been able to ascertain through how many hands the tobacco passes before it ends in ashes and smoke. Think of a human being spending the working hours of a whole week in making the 22nd part of pin, the 64th part of a shoe, the infinitesimal part of a cigar, and you can form some idea of the drudgery against which human nature rebels, and from which it seeks relief by visiting the roof garden, the theater and the saloon. I say I have no quarrel with the toilers who seek recreation. Our insane asylums are filled with farmers' wives whose work was never done, who went through a ceaseless round of drudgery seven days in the week year after year until the nervous system broke down and the individual sank into hopeless insanity. It is the inexorable demand of human nature that it shall seek and have relief from the drudgery of piece work in the shop and factory. What keeps me awake at night, is the thought that if these toilers had been taught at school how to use and enjoy a good book, they would seek recreation and enjoyment by visiting the public library instead of going to the roof garden and the saloon.

PILES! PILES! PILES!

Williams' Indian Pile Ointment will cure Blind, Bleeding and Itching Piles. It absorbs the tumors, allays itching at once, acts as a poultice, gives instant relief. Williams' Indian Pile Ointment is prepared for Piles and Itching of the private parts. Sold by druggists, mail 50c and \$1.00. Williams' Mfg. Co., Props., Cleveland, O.

NOT INTOXICANTS

SOFT DRINKS MADE BY LAEVLSON & CO. SO DECIDED.

Judge Cross Dismisses A Case In His Court and So Deciding.

Thos. Cole was tried before police court Judge Cross, charged with selling liquor without a license, and as it developed he sold A. M. Leavison & Co., Cremo Temperance, Dr. Fizz and other non-intoxicating beverages, and the evidence showed that these drinks were non-intoxicating, and the claims of A. M. Leavison & Co., were sustained, and this decision is of much importance to A. M. Leavison & Co., and their numerous customers, throughout this vicinity who are handling these beverages.

DeWitt's Little Early Risers, the famous liver pills, are sold by all druggists.

A little dimple has caused many a man to have heart trouble.

COTTON CROP IS REPORTED CLEAN

Week of Uninterrupted Growth is Reported.

Total Winter Wheat Yield of 385,000,000 Bushels Chicago Report.

ACTION OF BULLS IN CORN

Memphis, June 30.—The past week was one of uninterrupted cultivation and growth in cotton. The crop with the exception of eastern Oklahoma is now clean and in excellent condition. The hot days and nights of the early week made it grow very fast. The color is good and the plant looks quite thrifty. In some sections, notably southern Texas, the plant is very large and well advanced for the season.

In South Carolina and parts of Georgia the rainfall was a trifle heavy, but no serious damage is reported. Showers in southern and central and western Texas were beneficial, supplying needed moisture. Elsewhere there was little or no rain.

It is now certain that crops adjacent to the levees along the Mississippi river have been practically destroyed by silt water and that the river bottoms to the west are lost to cotton, notwithstanding that some scattering efforts at replanting have been made. There is therefore some reduction from estimates of acreage made in May or early June.

Little damage from weevils is reported from Texas, but they are more numerous in Louisiana than last year.

Chicago Grain.

Chicago, June 30.—The important piece of news for the day was a report given out by a conservative crop expert indicating a total winter wheat yield for the year of 385,000,000 bushels. He estimates a yield of 250,000,000 bushels for the seven principal states, including Kansas, which is put at 72,000,000. The figures are decidedly bullish and formed the basis for the bull market for the day. Report from Springfield, Ill., says farmers stacking wheat and declining to sell at present prices. These were messages from that point saying that spring wheat raisers are uneasy over the possibility of black rust later in the season because of the strong claims made about black rust being found at points in Nebraska. Weather continues favorable for harvesting and threshing, and at present the northwest crop outlook is the finest. Baltimore had receipts of 20,000 bushels of new wheat today. The market for next week is likely to turn on weather over both winter and spring wheat states and the heavy or light offerings from the early harvest sections. We have repeatedly during the week called attention to the fact that bull leaders in corn were encouraging sales on the part of the general trade and allowing the market to drift back, while there was not material change in the strong situation, except the bright growing weather for the corn states. There was a report from Nebraska that lowlands in that state and Iowa are showing decided loss and that the west generally will need perfect weather from this on to prevent the crop falling below normal. Fine weather and big crop promise, except for a few sections in Illinois and Indiana, make the oats trade bullish at the high prices, but selling is held in check for the present by the action in corn—Logan & Bryan to W. L. Lyons & Co.

Kodol is the best known preparation that is offered to the people today for dyspepsia or indigestion or any stomach trouble. Kodol digests all foods. It is pleasant to take. It is sold here by all druggists.

Some men try to dodge the issue when they find what they are looking for.

SUMMER HAS ARRIVED

and with it the necessity for a new light-weight suit. If you want your clothing to be the same of style and elegance you should choose your fabrics from our superb assortment, and we will fit them perfectly, and give individuality in style such as you can't get with ready made garments.

Overzealous. If you have ever been annoyed by a too enterprising barber, you will appreciate the little incident that left one of them rueful and crestfallen the other day. Having shaved the customer, he ran his hand over the man's head and said, insinuatingly: "Have a hair-trim today, sir?" "Do you think I need it?" "Yes, it looks pretty long."

"Well, how is the boss barber on hair-trimming? Is he pretty good?"

"Yes, he's pretty good, all right. But why?"

"Well, he trimmed my hair yesterday."—Philadelphia Public Ledger.

When you need something to take take it promptly for the stomach, but take something you know is reliable—something like Kodol. For Dyspepsia and Indigestion. Kodol is pleasant to take; it is reliable and is guaranteed to give relief. It is sold by all druggists.

SAVE MONEY ON YOUR MAGAZINES

It is a great deal cheaper to place annual subscriptions to several magazines at the same time and order them all together from us, than it is to buy the same magazines singly or subscribe to them separately. Combination club offers are now made by which subscribers to several magazines an secure bargain prices, sometimes getting three or four magazines for the price of one or two. Subscriptions may be sent to different addresses, if desired, and may begin with any month. Let us know what magazines you want to take now or what magazines you want to take next year, and we will quote the combination price, showing saving to be effected.

Farmers!

EVERY FARM IN THIS GREAT COUNTRY NEEDS AN I.H.C. GASOLINE ENGINE

If you farm and don't use a gasoline engine you are not up to the times. A gasoline engine will save you so much labor, so much time and so much money that after you once use one you will wonder why you did not purchase the engine long before. Of all the gasoline engines on the market, the I. H. C. engine is "the farmer's engine" because it was designed by expert mechanics principally for farm use. That's why it is so simple and so practical and so economical in fuel consumption. I. H. C. engines are built in sizes from 2 to 20 horse power and in vertical and horizontal stationary and portable styles. We have just the one for your needs and if you will call on us we will gladly show you wherein the I. H. C. engine differs from all others and why it excels them all.

SPEAKERSHIP THE REWARD.

Washington, June 30.—An orga-
nized effort is said to have been dis-
covered to defeat "Uncle Joe" Can-
non for speaker of the Sixty-first
congress if the Republicans carry the
house. He has been tagged as an
undesirable reactionary and must be
eliminated, so the report goes.Iowa is expected to lead the re-
volt against the Illinois congressman.
In the first place, Iowa has wanted
the speakership honors for years as
a tribute to her old veteran, Colonel
"Pete" Hepburn. In the second place
the state is not in sympathy with
some of Cannon's policies.The action of Republicans in Gut-
hrie county, Iowa, adopting resolu-
tions, calling upon Representative
Walter I. Smith, one of the most in-
fluential men in the house, and one
who is generally regarded as needing
no instructions, to vote against
Joseph G. Cannon for speaker, is
said to be the first step in the cam-
paign. Other Iowa organizations
will follow suit, and it is predicted
that many of the congressmen from
that state will have the organizations
upon which they depend for election,
demanding the defeat of Cannon and
the selection of Hepburn to succeed
him.Should Iowa lead off in this mat-
ter, most of the northwestern states
will follow her, it is calculated. Wis-
consin is said to be up in arms
against the drastic rules of the
speaker that have squeezed the La
Follette disciples so hard that they
have been able to do nothing more
effective than to make a futile pro-
test. Not one solitary crumb of re-
form have they been able to bring
forth to the hungry reformers in the
Badger state, and they say it is all
because "Uncle Joe" will not allow
them to do anything to save the na-
tion. Some of them have spoken
their minds on the floor of the house,
while others contented themselves
with breaking over party lines when
the speaker cracked the whip to carry
out some of his plans.Minnesota, Michigan, Nebraska,
California and Kansas are counted on
to vote for a change in affairs in the
house, while scattering representa-
tives, disgruntled by the way things
have been run in the house during
the last three congresses are classed
with those who will vote against the
Illinois member.Colonel Hepburn is not the only
man in the house who would like to
succeed Cannon. There is Representa-
tive Burton, of Ohio, regarded as
the most effective orator, deepest
thinker and profound student on the
floor. Representative Boutwell, of Illi-
nois, is also said to be good timber.
Should the Democrats by any
chance regain control of the house, it
is generally regarded as certain that
Representative Champ Clark, of Mis-
souri, will be chosen speaker. In the
last five years, Clark has grown im-
mensely in the house, and besides
being level-headed, is a first-class
orator.ROGERS' LIVERWORT

able.

Eczema is Now Curable.

A St. Louis chemist, after many
years of careful experimenting and
investigation, has discovered a simple
remedy that has cured hundreds of
cases of eczema that had been pro-
nounced incurable. This chemist be-
lieved that eczema and all itching
skin diseases were of local origin
and were caused by germs which at-
tacked and fed on the skin. He be-
gan to search for a remedy that
would destroy these germs, and
found that by combining the active
principles of certain well known vege-
table drugs, and applying them locally,
the itching and burning, and if used per-
sistently would drive all germs and
their poisons to the surface of the
skin and destroy them, leaving a
nice, clear, healthy skin. He gave
this remarkable remedy the sugges-
tive name of Zemo, and since its in-
troduction to the public Zemo has
proved a very popular remedy and
is today recognized the most success-
ful and meritorious remedy ever pro-
duced for the relief and cure of ec-
zema and all diseases of the skin and
scalp.Mr. Will J. Gilbert, the druggist,
endorses and recommends Zemo and
says that he believes Zemo to be an
honest medicine and will do all that
is claimed for it.LARK'S

Extracting Teeth and Plate
Work a Specialty.THE TRUTH ABOUT
KIDNEY TROUBLE.Kidney trouble is inflammation of
the kidneys due to colds, exposure,
worry, excesses in eating and drink-
ing, etc.
Backache is seldom an evidence of
inflammation of the kidneys.
Smokiness or sediment that can be
seen with the naked eye, are not
usually evidences of a very serious
stage of inflammation. Both often
show in people otherwise well and
commonly disappear with the excit-
ing cause.The patient should diet, avoid
colds and live carefully and the ordi-
nary case of kidney trouble will with
care and treatment usually disappear
the first few weeks.If it persists, or there should be
continued evidence of disordered kid-
neys, it should demand the attention
of the patient in view of the position
taken by medical writers that about
the sixth month the inflamed condi-
tion becomes chronic and incurable.
It will be seen through all the
above that the real trouble is inflam-
mation of the kidneys. While there
are many kidney stimulants they
have been abandoned by physicians
for they now know that none of them
carry repair to inflamed kidneys.The late John J. Fulton was the
first man in the world to discover an
emollient that reaches the kidneys.It reverses the old treatment. In-
stead of irritating the inflamed kid-
neys with stimulants, the effect is the
gradual reduction of the inflamma-
tion and for the first time kidney
diseases both in the first and second
stages, is amenable to treatment.
Fulton's Renal Compound abating
the inflammation in about 87 per
cent of all cases.

TOBACCO NEWS

Louisville Market.
Louisville, Ky., June 30.—Business
was at a minimum in the local leaf
market this week, and about the only
feature was the smallness of the move-
ment. The aggregate sales were
hardly more than a third of a day's
business during the height of the sea-
son early in the year. Receipts were
also very light and consisted largely
of Equity tobacco was limited, only 80
hogsheads of old burley, belonging to
the society, being protracted hot and
dry weather is preventing the comple-
tion of planting in the burley dist-
rict and retarding growth.In the burley division of the mar-
ket the limited offerings of new net
with a very strong demand and values
showed an upward tendency, closing
the week fully 1/2¢ higher for medium
and good leaf, and a bid or two high-
er for all other grades. Old burley
was offered very sparingly and values
showed no change of consequence.New dark was offered to the extent
of 151 hogsheads. It was of inferior
quality and in poor condition. Good
order manufacturing leaf continued
in strong demand and going prices
were at outside quotations. Rehand-
ling grades were irregular. Short
common leaf ruled firm. Very few
hogsheads available for export were
stripped. The demand for lugs slack-
ened perceptibly, but prices showed
no quotable recession.Sales for the week were the lowest
in four years, and probably estab-
lished a record for smallness. They
totaled only 577 hogsheads against
2,079 last year, 3,053 in 1906 and
2,795 in 1905. The 577 hogsheads
were comprised of 144 new burley,
92 old, 322 new dark and 19 old, of
which 302 were sold by auction and
275 privately. From January 1 to
date sales aggregated 77,633 hogs-
heads, against 76,798 last year, 95,-
014 in 1906 and 81,960 in 1905. Re-
ceipts this week were 1,084 hogs-
heads against 2,523 last year and 2,-
079 in 1906, and from January 1 to
date they were 63,289 hogsheads,
against 62,186 last year and 68,426
in 1906.One of the largest importers in
Norway of American leaf tobacco has
brought to the notice of Consul Felix
S. Johnson, of Bergen, reasons why
Norwegian tobacco manufacturers
prefer to purchase their tobacco from
Germany rather than from the United
States. The importer claims that dur-
ing the past few years the American
leaf tobacco was dried by means of
steam instead of being hung up and
allowed to be dried by air; that many
cases had been packed while wet,
causing fermentation, and shipped to
Europe; the rejected cases were then
shipped to other European ports to
be sold for what price the goods
would bring. Most of the Norwegian
manufacturers purchased the Ameri-
can leaf tobacco through Bremen com-
mission houses whose salesmen visit
these parts once or twice a year; they
have with them samples and allow a
credit of some months; if the goods
arrive in a damaged condition, or not
as ordered, they are refused and ship-
ped back to Germany.

Official Quotations.

The following are the revised quo-
tations on dark leaf tobacco as com-
piled by the committee on quotations
of the Louisville Leaf Tobacco Ex-
change for the week ended June 26,
1908:

	Mfg.
Trash (green)	\$6 25 @ 6 75
Trash (sound)	6 75 @ 7 25
Com. lugs	7 25 @ 7 75

Fine	11 00 @ 12 00

Association Sales.

Sales by the representatives of the
Planters' Protective association for
the week ending June 20 reached a
total of 2,127 hogsheads at all the
salesrooms, with a grand total of 21,-
514 for the season. The sales of
1907 crop are going off more rapidly
than any other has ever done, and it
is probable that the association is
5,000 hogsheads beyond the sales-
mark of the same time last year.Sales of last week showed a decid-
ed improvement over those of the
previous week, the gain being 628
hogsheads.Sales during the week were decid-
edly heavier at the larger tobacco cen-
ters. Six hundred and twenty-four
hogsheads were sold at Clarksville,
and 443 at Springfield. The sales at
Guthrie were 142 hogsheads, which
was five less than those at Hopkins-
ville. Paducah, as usual, was well
up in the van with sales, the buyers
at that place taking 473 hogsheads.
Murray made a good showing during
a week not up to the mark by dispos-
ing of 152 hogsheads, leading both
Guthrie and Hopkinsville. The
French buyers have been among the
most active in western Kentucky dur-
ing the present season. O'Brien &
Co., of Louisville, who are buying for
France this year have been busy at
Paducah, Murray and Mayfield ever
since the season opened.The story of Marseilles' consul,
therefore, has caused no apprehen-
sion among association officials. To
overcome any effect it might have
had, comes the report from Hopkins-
ville of the sale by Mr. R. C. West, of
that place, of two hogsheads of tobacco
to Liverpool manufacturers. "This
tobacco was treated in a way which
Mr. West is confident will overcome
the scruples of the British trade
against tobacco which has been prized
The only objection which will have
the slightest effect on Mr. West's pro-
cess is a small increase in the cost.
This it is thought, will not materially
affect the matter.The insurance companies are feel-
ing good over a decision handed down
by Judge Sandgate at Russellville a
few days ago that they are not re-
sponsible for the tobacco losses at
the hands of the "night riders." This
is exactly the reverse of the decision
in Princeton by Judge Gordon that
they are liable for such damage, so
the matter will probably have to be
finally settled by the court of appeals.

Clarksville Tobacco.

Clarksville, Tenn., June 30.—The
receipts in the open tobacco market
last week were 99 hogsheads; sales
270 hogsheads; market unchanged.All the foreign demands continue
in the market, and we have the usual
domestic orders.Receipts continue to fall off as
prizing houses finish their work.Shipments are going out freely, and
stocks will soon show diminution.
The tobacco flies are now busy lay-
ing eggs, the worms from which pro-
duce the flies, which cause the Aug-
ust glut of worms. If the worms are
picked off clean now, it will save
much labor in August.The salesmen of the Planters' as-
sociation sold here last week nearly
400 hogsheads at satisfactory prices.
The board of graders were here last
week regrading the samples which
failed to come up to the full classifica-
tions of the types.The Bremen market seems open,
with sales of 1,000 to 1,200 hogs-
heads at good prices. All of the ship-
ments by way of New Orleans. We
quote:

Medium lugs	\$8 50 @ 9 00
Low lugs	7 00 @ 7 50
Com. lugs	7 75 @ 8 25
Good lugs	9 25 @ 10 00
Low leaf	10 50 @ 11 25
Com. leaf	11 50 @ 12 50
Good leaf	14 50 @ 15 50
Fine leaf	16 00 @ 18 00

Cara Holland Moore.

On New Year evening, 1908, the
writer united in holy wedlock Miss
Cara Holland and Mr. George F.
Moore. It would seem that no bridal
couple could be happier than these
two young people were on that New
Year day. The bride, one of Paducah's
most charming daughters, the
bridegroom an estimable young busi-
ness man of St. Louis, in the midst
of a circle of select friends pledged
to each other their troth until death
should separate them. It was a
scene of beauty, of joy, of hope. The
future was radiant and full of
promise. But how soon has the hand
of the grim messenger severed the
silk cord that bound two hearts as
one! How soon have bounding hopes
been dashed to earth! In a little less
than six fleeting months, after a
short illness, the happy bride depart-
ed to be with her Lord, June 22,
1885, her natal day; January 1st,
1908, marriage day, and June 24th,
the date of her entrance into eternal
life. Cara was converted when a
mere child, in the Methodist church,
and afterward became a member of
the First Baptist church. Her life
was as pure as the stars, and her
faith in her Redeemer clear and
strong. An evidence of the general
esteem in which she was held in the
community was manifest on the day
of her funeral, when a large number
of sympathizing friends gathered to
look upon the face of their beloved
friend, beautiful even in death, and to
drop a tear upon her floral wreathedcasket. All that medical skill, loving
hands, tender ministry could do was
done for her, but the mandate from
above, "Come up higher," was im-
perative, and sorrowing friends must
yield to the will of Him who doeth
all things well.She leaves to mourn their loss, her
devoted husband, her sister Lella,
whose heart and hers beat as one,
mother, father and a large circle of
friends.The devotion of her husband dur-
ing her illness was pathetic and beau-
tiful. Hardly loved he realized that
his young bride was to be taken away
from him.On Thursday afternoon, June 25th,
dressed in her bridal gown, she was
tenderly laid away in beautiful Oak
Grove cemetery under banks of flow-
ers, to await the summons from on
high, when sundered ties shall be
reunited, family circles made whole,
and all mystery cleansed away.Believing in Jesus she died, and
now beholds the King in His beauty
and rejoices in the glories of heaven.SAMUEL B. MOORE,
Pastor First Christian Church.Kennedy's Laxative Cough Syrup is
the one that children like so well to
take as it tastes nearly as good as
apple sugar. It acts gently yet
freely on the bowels and thereby
it drives the cold out of the system.
It is sold by all druggists.If a small boy is quiet his mother
wonders what ails him.

Guy C. Hanberry, Eddyville, Ky.	2,000

100,000 Mark Passed.
Not another mile stone in yesterday's ballot but another hundred thousand mark passed by the contestants in the Sun great popularity contest, with Miss Ella Hill still in the lead. Other contestants have changed places, however, and the interest that these changes have created among friends and supporters of the candidates, as well as the candidates

themselves, amounts almost to a frenzy. Nothing that has happened in Paducah for some time seems to have aroused the interest and energies of the people as the Sun contest and the sharp, pleasant conflict between candidates and their friends waxes greater as the end of the contest draws nigh.

Who Voted Yesterday.
Another big vote was cast yesterday, Miss Mern Nichols, leading with a ballot of 64,024 votes, Miss Ella Hill following with 41,086 votes and Miss Vera Dodson next with 31,400 votes. Others casting large numbers of votes were Miss Lura Street with 14,500, J. H. Dugger with 12,025, and Joe Desberger with 12,012 votes. Several ballots of from three to five thousand votes were cast and placed those candidates that much nearer the top. Miss Ella Hill still leads, Joe Desberger is second, Miss Mern Nichols is third, A. W. Stewman, fourth, and Charles Denker fifth.

Help Your Candidate Win.
Tomorrow is the 1st of July, leaving only four more days in which to win. During the early part of the contest the work, enthusiasm, and interest seemed to be confined more especially to the candidates themselves and it was up to them to convince their friends they were in to win. As time wore on, however, those candidates who were hustling and among the "live" ones gathered about them friends and supporters. And now this last week of the contest interest has spread so that the friends and supporters are as much interested as the contestants themselves. Now is their opportunity to place their favorite candidate among the winners. You know what your favorite has been and is doing, what the prospects of success and to what extent your support will help carry them to the coveted goal. Four days in which to show your colors, in which to lend your shoulder to the wheel, in which to fulfill the promise you made the early part of the contest that if your candidate made a good showing you would help at the last. Get busy, interested, enthusiastic and place your candidate among the winners.

RIVER NEWS

River stage at 7 o'clock this morning, 19.2, a fall of .2 since yesterday morning. During the month of June the highest stage of the river was 24.3, and the lowest stage was 19.2, the greatest fall in 24 hours was .8, and the largest rise was .1. The river was falling all but 2 days. The amount of rainfall during the month was 3.69 inches. Rainfall last night .30 inches. June was a month of sunshine; there were 26 clear days and 4 cloudy days.

The steamer Dick Fowler cleared for Cairo on time this morning with a big trip of freight and passengers. She had 1,000 sacks of wheat for Metropolis when she pulled out this morning.

The Joe Fowler will be the Evansville packet tomorrow morning. The Peters Lee arrived from Cincinnati last night at 1 o'clock and got away at 3 o'clock for Memphis. She had a good trip of passengers but a light trip of freight.

The Clyde arrived from Waterloo, Ala., yesterday afternoon at 5 o'clock with a good trip of freight. She went to Joppa to unload and returned this morning and is taking on freight, preparatory to leaving for the Tennessee tomorrow evening at 6 o'clock.

The City of Saltillo will be in from St. Louis this afternoon about 6 o'clock on her way to Waterloo, Ala. The Royal was in at 10 o'clock this morning from Golconda and returned at 2 o'clock this afternoon with a good trip each way.

The George Cowling made her two regular trips from Metropolis today doing a big business on each trip. The Chattanooga is due tomorrow afternoon from Riverton, Ala., and all way landings. She will return Friday afternoon at 6 o'clock.

The Egan cracked a shaft on her way to Caseyville Sunday and had to come back to be repaired. She will be laid up several days.

The Harth got away for Caseyville yesterday after a tow of coal for the West Kentucky Coal company.

The Beaver passed up the Ohio this morning from the lower Mississippi with two barges of lumber for Cincinnati.

The Cutaway besides doing passenger business is towing rafts of logs down the Ohio river and out of Clark's river to Metropolis.

Mr. Roman Goslee, the popular young steamboat clerk on the steamer

Kentucky, was married this afternoon at Savannah, Tenn., to Miss Blanche Guinn, of Savannah. Miss Guinn is a very pretty and charming young lady. Mr. Goslee and his bride will return on the Kentucky Thursday night and will reside on South Third street.

Official Forecasts.
The Ohio at Evansville and Mt. Vernon will continue to rise during the next 24 hours. At Paducah and Cairo will continue falling for several days.

The Tennessee from Florence to below Johnsonville will rise slightly during the next 36 hours.

The Mississippi from below St. Louis to Cairo will continue falling for a number of days.

The Wabash at Mt. Carmel will continue to fall slowly during the next 24 to 36 hours.

MURRAY WINS

DEFEATS CRACK TEAM FROM
PARIS, TENN., 10 TO 2.

Indians and Powderly Team Will
Cross Bats at League Park on
Fourth of July.

The crack Murray baseball team defeated the nine from Paris, Tenn., yesterday afternoon at Murray by a score of 10 to 2. Williams and Brabie, of the Indians, helped the Murray team out of a hole, and each played a star game besides getting a nice hit. Cutchers for Murray, allowed only one hit, but Porter gave six bingles. Four hits went against Sweeney's record. The feature of the game was the work of Downs, Bowman, Brabie, Williams and Davis, for Murray. The second game was played this afternoon.

Fourth of July Game.
Fourth of July the Indians and the crack Powderly team will play at Wallace park, and one of the hottest games of the season is expected as the Powderly team put the only blur on the Indians' record this season when it won three weeks ago by a score of 3 to 0. Davis will pitch, and will try and hold the hard hitting team to a shutout in retaliation for the dose of whitewash that the Indians had to swallow.
Rumyan will pitch Sunday and Chief John Hollan believes his braves will win both games. Claude Baker an old Paducah boy, is manager of the Powderly team.

The more justice some men get the less they want to talk about it.

PREPARING FOR TRIP TO POLE

The "Roosevelt" Will Leave
New York July 1.

On Second Voyage to Grantland Will
Start Out on Sledge Journey
Over Ice September 1.

THE VESSEL IS IN GOOD TRIM

New York, June 30.—The work of loading and preparing the Arctic ship Roosevelt for her forthcoming trip to the north has gone forward so rapidly the crew was enabled to take a rest today. Capt. Robert A. Bartlett, who will be Commander Peary's skipper on the long and cold passage to Grantland, kept his men working night and day, and practically all the work that had to be done while the Roosevelt was in port has been accomplished.

The Roosevelt will not look as attractive when she clears from New York on July 1 as she did when Commander Peary took her on her first expedition. She was freshly painted then and her masts and booms were clean and varnished. She is a staunch vessel now than she was two years ago, and will be of greater service to the explorer, but her shabs by hull and smoke-begrimed house give her the appearance of a tramp steamer that has circled the globe on a year's journey.

Only the funnel and the interior of the cabins will take on a coat of paint. These "luxuries," as Captain Bartlett explained, were necessary.

Capt. Bartlett Talks.

"Commander Peary is looking out for the details of durability," said the skipper, and does not intend to spend money on frills. We are already coaled and have tucked away about 15,000 pounds of provisions. We will be ready to start on July 1, the date set by Commander Peary for his departure. We have gone along so well that we can afford to lay off work on Sunday. The Roosevelt is in great trim and will fill all the needs of the expedition. We will get to Grantland the first week in September and Commander Peary will start out on his sledge journey over his ice in February."

The surgeon who will accompany Commander Peary is Dr. Goodsell, of New Kensington, Pa. He was aboard the Roosevelt yesterday attending to the arrangement of his supply of medicines for the journey. Commander Peary will not board the Roosevelt at New Foundland, as was expected. He is now in Maine, but will arrive here on Monday.

Cobalt, the Rich Silver District.
During the past four years the Cobalt silver mines have been discovered, developed and found to be the richest silver mines in America. The Cobalt district is reached via the Grand Trunk Railway System. Pullman Sleeping Cars being available right to the heart of the camp. The territory is situated about 190 miles north of North Bay, or 326 miles north of Toronto.

DAY OF GRACE

EXTENDED BY CITY TREASURER
DORIAN FOR TAXES.

Penalty Will Be Added Thursday
July 2—Busy Scene at City
Hall Today.

To give the late taxpayer every advantage City Treasurer John J. Dorian will not add the penalty until Thursday on the citizen who has failed to pay his taxes. Today there has been a constant jam at the treasurer's office, and many thousands of dollars were taken in. Last night Treasurer Dorian and Auditor Kirkland and the office force were busy until 11:30 o'clock taking in money.

Tonight there promises to be a bigger rush, but the majority of the taxpayers have learned that it is better to pay taxes early in the month and not wait until the last minute. The courtesy of the city officials in not adding the ten per cent penalty until July 2 will be appreciated by many of the taxpayers who were unable to appear today.

Being bitten by a toothless dog must be soft snap.

FIREMEN ENJOY FUMES
WHILE FIGHTING FLAMES.

While freight train No. 51 was pulling out of the south yards of the Illinois Central last night at 10 o'clock the train crew saw that a box car was on fire. Immediately the car was jerked out, and a switch engine started on the run for Sixteenth and Tennessee streets, when the No. 4 fire company met the car. Two streams of water were turned on the

car, and only the roof and the sides of the car were damaged. The car was loaded with fertilizer, and the heat and water did not improve the smell. The firemen held their breath while they worked, but kept the water on the fire until extinguished. When the fire station was reached, and before they turned in to bed the camphor bottle was used freely.

It's hard to keep up appearances and save money simultaneously.
